

# Extended Shunts

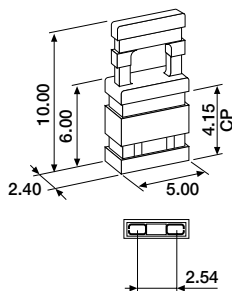

## 2.54mm with All Around Finger Grip

A newly designed family of shunts with a unique all around finger grip for easy removal from male headers. These shunts are designed to be placed side by side or back to back and have a special design which protects them against being mis-placed (male pin cannot be placed in between the two contacts). Contact point is 4.15mm from the bottom.

Material : Glass-filled Polyester, UL 94V-0  
Contact : Phosphor Bronze  
Plating : 3.0 $\mu$  Tin (90/10) over Nickel or 0.2 $\mu$  Gold over Nickel  
Electrical : See Chapter 15

### ■ 2.54mm, closed top, short grip
