

Scart Connectors

A low cost interface connector standardised for mainly video applications. Earth connection with the shell is made by placing a crimp type contact between the body and the metal shell.

- Material : Polypropylene (hood)
Glass-filled PBT (connector insert)
Nickel Plated Steel (shell)
- Contacts : Copper Alloy
- Plating : Tin
- Electrical : See Chapter 15

Male connector

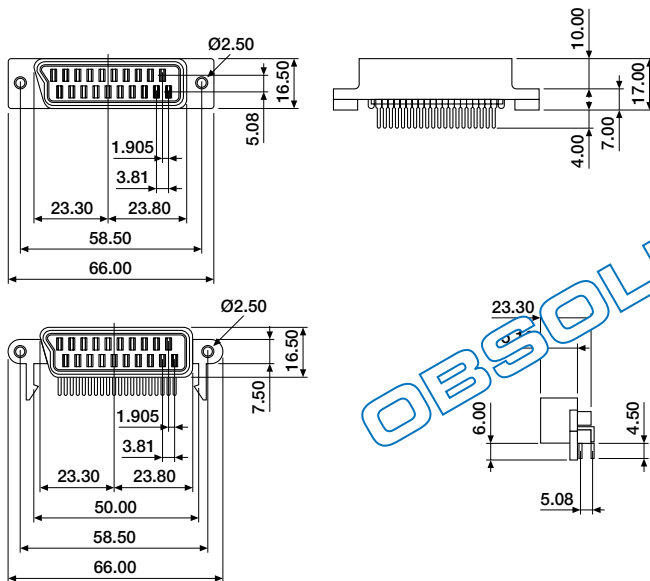

ORDERING INFORMATION

SCM-21HS-0000

model with hand solder contacts

Female PCB connector

ORDERING INFORMATION

SCF-21DS-0000

straight

SCF-21DS-1000

right-angle with holding clips (not shown)

SCF-21DS-3000

right-angle with holding clips & mounting holes
