

# XLR Connectors

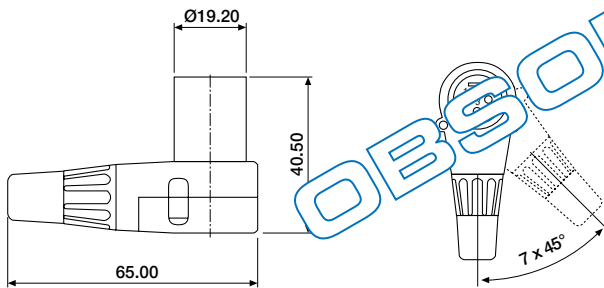

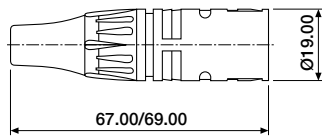

## Cable Mount

These professional Neutrik connectors are accepted as standard, worldwide. They have rugged die cast shell, compact design, time saving assembly (4 parts only), no screws and are equipped with the unique chunk type strain relief. Back sleeve is coloured black as standard. For identification 10 different coloured sleeves are available. Right-angle models have a 7 x 45° index possibility.

- Material : Die Cast Zinc (housing)  
Nylon (inserts)  
Polyacetal (cable clamp)  
Polyurethane (sleeve)
- Contacts : Copper Alloy (male)  
Phosphor Bronze (female)
- Plating : Silver or Gold over nickel
- Electrical : See Chapter 15
